COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Sir:

In the Statement of Reasons for Allowance, the Examiner has indicated that "the prior art made of record does not disclose, alone or in combination, a planar lawn edging change of grade connector comprising a channel or receiver for operably engaging on [sic] of a first or second landscaping strip, a fastener assembly comprising a pivot axis, and wherein the channel defines a longitudinal axis." This statement improperly combines the elements of the two allowed independent claims, and Applicant asserts that the claims are allowable based on the elements actually found in the claims and a proper construction thereof. Independent Claim 1 does not include a "channel" element, and also does not include a longitudinal axis defined by the channel. Independent Claim 14 does not include the limitation "planar" as applied to the change of grade connector, nor does Claim 14 define a

longitudinal axis by either of the two channels included in this claim.

Respectfully submitted,

David G. Boutell
